Finances & Budget

Approximately what percentage of your total annual budget does the requested amount represent?

Does your organisation receive state funding or funding from supranational bodies or international aid organisations?

No

Yes, from...

Would a partial sum of the requested funding amount also work for your project proposal?

No - Why not?

Yes - How? And what would be the minimum required amount?

Please attach an overview of your project proposal's income and expenses in a spreadsheet (vertical format, 1 page max).

Please be sure to indicate whether or not the project proposal will receive funding in addition to that requested from Sea-Watch e.V., and if so, how much. If what you are requesting funds for with this proposal is to be continued (e.g. a position) beyond Sea-Watch e.V.'s funding period, we would also like to know whether there are ideas for further financing.

Statutes

If the following applies to you, please tick this box:

- We have already submitted a proposal including our statutes to Sea Watch e.V. in a previous funding period and no changes have been made to our statutes since then.

If this is not the case, **please attach your statutes plus a translation into English or German** if they are written in another language (an automatically generated translation is sufficient).

Proof of Non-Profit Status

If the following applies to you, please tick this box:

- We have already submitted a proposal including our proof of non-profit status to Sea Watch e.V. in a previous funding period and it will be valid for at least one year from now.

If this is not the case, please attach your proof of non-profit status plus a translation into English or German if it is written in another language (an automatically generated translation is sufficient).

Depending on where your organization is based, there are different requirements

● Organizations based in Germany:

- Option 1: A notice of exemption dated no more than five years ago.
- Option 2: A notice confirming compliance with the statutory requirements in accordance with Section 60a (1) of the German Tax Code (AO), dated no more than three years ago. This notice is only valid as proof if the organization has not previously been granted a notice of exemption.

● Organizations in other EU countries:

- Proof of non-profit status from the respective national tax authority.

● Organizations based in a country outside the European Union:

- We require confirmation that the activity is considered non-profit under German law in accordance with § 52 of the German Tax Code (Abgabenordnung). Please contact funding@sea-watch.org and we will send you a corresponding template.

You can also submit a proposal if you do not yet have proof of your non-profit status. In that case, please briefly explain the processing status and expected timeframe.
